SYNAPTEC SOFTWARE AND CAPSTONE PRACTICE SYSTEMS ANNOUNCE STRATEGIC ALLIANCE

*Leading Legal Software Provider Names Capstone
Its Key Resource for LawBase-HotDocs Customization Projects*

Denver, CO, November 20, 2006 – Synaptec Software, Inc. (www.lawbase.com) announces a new strategic alliance with Capstone Practice Systems, an IT consulting company located in Harvard, MA (www.capstonepractice.com). Since 1998, Synaptec's flagship product LawBase Matter Management software has bundled in a license of HotDocs document assembly software (www.hotdocs.com) for no extra charge. With the new Synaptec/Capstone partnership in place, Capstone will assist Synaptec's customers in setting up HotDocs templates and integrating HotDocs with LawBase.

LawBase has developed powerful, bidirectional integration which not only extracts information from its database into HotDocs, but also writes data back to LawBase from HotDocs. With help from experienced HotDocs consultant Capstone, LawBase customers now can get more value out of their LawBase and their included HotDocs license.

"Synaptec's new alliance with Capstone allows us to provide a higher level of service to our worldwide LawBase customers who want to use HotDocs," said Phil Hamburger, President of Synaptec Software. "LawBase has the most powerful, comprehensive integration of any matter management system on the market. Therefore we felt it was a priority to expand our reach in this area. We approached Capstone for this partnership based on their professionalism, experience and deep knowledge of the legal industry."

Capstone Senior Consultant Bart Earle commented, "As HotDocs Certified Independent Consultants, we have a deep understanding of how various software products integrate with HotDocs. We are impressed by how thoroughly LawBase handles the integration. We look forward to working with Synaptec and its customer base on many assignments."

The first project where Capstone collaborated with LawBase was done for Princeton, NJ law firm Stark & Stark, P.C. The firm's Applications Specialist Amy Hamilton commented, "We are very pleased with the

compatibility of HotDocs and LawBase – it has enabled us to better manage our work and really focus attention on our clients. LawBase’s flexibility allows us to adapt our specific needs to various practice areas and integrate with other software in use. Capstone has provided excellent communication and technical ability. Working with the LawBase team, they have turned our requests around quickly with strong results and have generated a useful system specifically customized for us.”

About Synaptec Software, Inc.

Based in Denver, Colorado, Synaptec Software, Inc. is the developer of the LawBase matter management software package. A veteran company in the software field, Synaptec has 25 years of experience in developing the most adaptable, intuitive matter management product on the market today. LawBase is a computerized Matter Management System which allows you to customize your database to suit your needs. The product is currently being used by over 250 sites including law firms, Fortune 500 corporate legal departments and government agencies. Combining its links to the Internet and full multimedia capabilities, LawBase provides “Legal software that thinks the way that you do.” For more information, visit www.lawbase.com or call 800-569-3377.

About Capstone Practice Systems

Capstone Practice Systems helps law firms and legal departments work more effectively through advanced document automation. Its leadership team has all practiced law so the company understands what technology lawyers need to run their practices effectively. The company’s principals are HotDocs Certified Independent Consultants. Capstone’s founder worked with the product’s developers before HotDocs was even created. Capstone has developed templates for more than 100 law firms, corporate legal offices, government agencies and legal services organizations in more than 20 practice areas. Capstone clients range in size from sole practitioners to Fortune 500 corporations. Whether you are looking to outsource a major project or obtain training or technical assistance for in-house developers, Capstone can accommodate your needs. The company is based in Harvard, Massachusetts. For more information, visit www.capstonepractice.com or call 782-652-8419.
