## FOR IMMEDIATE RELEASE

# Synaptec Software Announces the Release of LawBase Concierge

*New addition to case management software promises added efficiency*

**January 27, 2011** – Denver-based Synaptec Software, Inc. has announced the release of LawBase Concierge for its case and matter management program LawBase. LBConcierge allows for a wide variety of unattended document and report generation and is capable of a number of other automatic functions.

“We’re excited to release this new addition. We’ve been constantly improving our product for the past thirty years and are looking forward to see how our clients will utilize and customize Concierge,” said Synaptec President Phil Homburger.

LBConcierge integrates with existing calendars to trigger notifications about important deadlines before they happen. LBConcierge can also update any information contained in the LawBase database.

For example, every evening LBConcierge would be able to find all the files with a certain status and assemble a document for each file and print it. It could also send an e-mail, including report attachments and generated Excel files. All of this may be accessed via a mobile device.

LBConcierge represents a powerful step forward in case management innovation from a company that has been providing best-of-breed case and matter management for over thirty years.

### **About Synaptec Software, Inc.**

Based in Denver, Colorado, Synaptec Software, Inc. is the developer of the LawBase matter management software package. A veteran company in the software field, Synaptec has more than 30 years of experience in developing the most adaptable, intuitive case and matter management product on the market today. LawBase is currently being used by thousands of users in law firms, Fortune 500 corporate legal departments and governmental agencies. LawBase can be installed on premises or hosted remotely.

“Legal software that thinks the way that you do.”
