## FOR IMMEDIATE RELEASE

### **SYNAPTEC SOFTWARE ANNOUNCES SUPPORT FOR MICROSOFT WINDOWS 7**

*LawBase compatible with latest Windows operating system offering more flexibility to users*

**Denver, Colorado (December 3, 2009)** — Synaptec Software, Inc. ([www.lawbase.com](http://www.lawbase.com)), the provider of the industry-leading case and matter management program LawBase, has announced support for Microsoft Windows® 7. Effective today, customers using LawBase 10.7 and LawBase 12 will be supported on Windows 7.

LawBase is in its 30th year and is being used by thousands in law firms, corporate legal departments and government agencies nationwide and abroad. LawBase can be installed on premises or hosted remotely.

"Synaptec is committed to delivering software that meets and exceeds our customers' functionality requirements, while providing the broadest possible choice of operating systems," stated Phil Homburger, President of Synaptec Software. "We share a goal with Microsoft of making the tasks our customers perform every day easier and faster. Adding support for Windows 7 was a natural fit for our product and allows our customers even more flexibility."

Windows 7 offers many powerful new features and functionality that will benefit LawBase customers, including full support for 64-bit computing, Windows search and improved performance. Multi-touch support has also become a core capability of Windows 7, and LawBase is developing new software to take advantage of this technology.
