**MANNATECH LEGAL DEPARTMENT SELECTS SYNAPTEC'S LAWBASE SOFTWARE  
FOR SUPERIOR FUNCTIONALITY, EASE OF USE AND AFFORDABILITY**

**Global Nutritional Supplier Will Use LawBase to Simplify  
Litigation and Contract Management**

**Denver, Colorado (January 21, 2008)** — Synaptec Software, Inc. ([www.lawbase.com](http://www.lawbase.com)) has announced that Mannatech, Incorporated ([www.mannatech.com](http://www.mannatech.com)), a global wellness solutions provider and developer of nutritional supplements, has purchased Synaptec's LawBase matter management application for its legal department. Mannatech bought LawBase in order to simplify contract management, organize its extensive intellectual property portfolio, and track litigation.

"Our company has experienced tremendous growth over the past few years and we needed a more efficient way to manage legal matters," said Keith Clark, senior vice president and general counsel for Mannatech. "LawBase had the functionality our legal team needed and the product was both easy to use and affordable."

Mannatech selected Synaptec's LawBase application because it is easier to use and more cost effective than other matter management solutions on the market. The company was also impressed by the application's high level of integration and automated reminders, which alert corporate legal staff of important contract renewal dates and filing deadlines. Prior to implementing LawBase, Mannatech had used an Excel spreadsheet to track and manage important contract and litigation details, which proved challenging to search and update.

"Companies are constantly looking for ways to improve operating efficiencies through technology," said Phil Homburger, president of Synaptec. "LawBase provides legal professionals with an intuitive, customizable and affordable solution to better track and maintain files, manage and update calendars and schedules, and perform complex repetitive tasks with just a few keystrokes."

LawBase is a matter management system designed to increase legal management productivity. The software is used by thousands of legal professionals at small, medium and large law firms, as well as corporate legal departments and government agencies.

#### **About Synaptec Software, Inc:**

Based in Denver, Colorado, Synaptec Software, Inc. is the developer of the LawBase matter management software package. A veteran company in the software field, Synaptec has over 27 years of experience in developing the most adaptable, intuitive matter management product on the market today. LawBase is currently being used by over 250 sites including law firms, Fortune 500 corporate legal departments and governmental agencies. Combining its links to the Internet and full multimedia capabilities, LawBase provides “Legal software that thinks the way that you do.” For more information about Synaptec, visit [www.lawbase.com](http://www.lawbase.com) or call 800-569-3377.
