SYNAPTEC SOFTWARE ANNOUNCES PARTNERSHIP WITH KNOWLEDGELAKE

Case management leader to add integration with SharePoint functionality within their product

Denver, Colorado (August 24, 2009) — Synaptec Software, Inc. (www.lawbase.com), the provider of the industry-leading case and matter management program, LawBase, today announced they have partnered with KnowledgeLake, Inc. (www.knowledgelake.com), a leading provider of document imaging and capture technologies for Microsoft Office SharePoint Server 2007 Enterprise Content Management (ECM) solutions. Through this partnership, LawBase will be adding SharePoint DMS integration along with other functionality to their offering.

“We are excited to have the opportunity to work with KnowledgeLake to bring our customers the ability to integrate SharePoint functionality and features into LawBase,” stated Phil Homburger, President of Synaptec Software. “We believe our integration with KnowledgeLake is the next step to bringing the best technology and product to the legal industry.”

LawBase is in its 30th year and is being used by thousands in law firms, corporate legal departments and governmental agencies nationwide and abroad. LawBase can be installed on premises or hosted remotely.

The KnowledgeLake suite of products extends SharePoint into a comprehensive Enterprise Content Management (ECM) solution that enables businesses to reduce shipping costs, streamline operations, and achieve regulatory compliance using familiar Microsoft products that most businesses already own and use.

About Synaptec Software, Inc.

Based in Denver, Colorado, Synaptec Software, Inc. is the developer of the LawBase matter management software package. A veteran company in the software field, Synaptec has over 30 years of experience in developing the most adaptable, intuitive matter management product on the market today.
